ABOUT ME

Can Demren is a multidisciplinary artist whose work primarily focuses on figurative oil painting, drawing, film, and sound.

The central motivation behind his artistic practice is to capture and convey an awareness of the present moment as he experiences it from his perspective on the world.

He strives to reflect these confrontations in his work as impartially as possible, his art serving as a reflection of his feeling of responsibility to his native Turkey, his current home in the Netherlands, and his personal histories, as well as his encounters with social oddities.
