ABOUT ME

Mohammed Tatour is a multidisciplinary artist, researcher, and designer from Palestine, currently based in Amsterdam.

He works with a broad range of mediums including photography, painting, graphic design, installation, and video art.

Through the experiences of living his life under occupation, especially his years in Jerusalem, his work portrays socio-cultural expressions by intertwining past struggles with current experiences.

Through storytelling and communal narratives, Tatour captures the essence of Palestinian local histories, offering a profound reflection on their ongoing journey of resilience towards freedom.
